

Kathy's Centre, Mayuge

Partners: Act4Africa and Engineers for Overseas Development

Social Enterprise Training

Project Overview:

The construction of Kathy's Centre for health and education not only benefitted the local community, but also the individuals who were trained and employed on the project. Using the design expertise of Engineers for Overseas Development, HYT employed 5 graduates from the 'One Village at a Time' programme to build the structure. 5 trainees from the local area were also selected to learn Interlocking Stabilised Soil Block (ISSB) masonry.

Feedback:

"I'm impressed with the guys here; they work really hard."

- Zak, Chair of Engineers for Overseas Development, North-West Branch
