

Kathy's Centre, Mayuge

Partners: Act4Africa and Engineers for Overseas Development

August - December 2016

Project Overview:

HYT teamed up with two UK-based charities to construct Kathy's Centre for health and education in Uganda's Mayuge district. The Centre will hugely enhance Act4Africa's operations in the area, and give young Ugandans access to HIV counselling and sexual health advice. A section of the facility will also function as a kindergarten during the day and a youth centre at night, providing activities and support for local young people.

Feedback:

"Absolutely brilliant."

- Giles, EfOD representative
