

## 5-Stance VIP Pit Latrine

Lake Site Primary School, Masese, Jinja

Partner: Peter Bond

January - March 2017

### Project Overview:

The 5-stance Ventilated Improved Pit (VIP) latrine at Lake Site was generously funded by Peter Bond. The structure fulfils a vital role in the school and includes a walled washroom for hygiene and privacy. It was built over a period of 13 weeks by graduates of HYT's 'One Village at a Time' training programme. As a girls' bathroom, the building aims to fulfil UN Sustainable Development Goals 5 (Gender Equality) and 6 (Clean Water and Sanitation).

### Feedback:

"We are very grateful for your work here. We have seen the team working very hard!"
