

## Double Classroom Block, Staff Accommodation and 20,000L Water Tank

St. Stephen's Primary School, Butaaya (1V10)

One Village at a Time Training

July 2016 - May 2017

### Project Overview:

St. Stephen's Butaaya marked HYT's 10th 'One Village at a Time' training project. Not only were trainees versed in the usual arts of soil selection, excavation, block-making and masonry, but they also had the chance to hone their decorative skills. Haileybury houses Batten, Kipling and Lower School funded the classroom outfitting, water tank and staff house respectively. They were adorned in house colours and represent smart, functional additions to the school.

### Feedback:

"We are so happy with the buildings. Every school in Kamuli should be built using this technology!"

**- Stephen, Head teacher at St. Stephen's, Butaaya**

#### Cost:

US \$21,600

(UGX 77,044,700)

No. of Ugandans Trained: **10**

No. of School Beneficiaries: **593**

Trees Saved: **2**

Energy Saved: **48 MWh**

**Project Number: 105**
