

1V7 - St Peters Nakibungulya Primary School

Staff Accommodation and Batten Tank

Aug 2015 - Oct 2015

Project Overview:

These staff quarters currently house 6 teachers and their families on school site. The Batten Bistro funded their 10,000L water tank and separate tap. These teachers now have clean fresh water and no need to walk miles into work.

Feedback:

“Teachers living on site really helps to reduce lateness in attendance. We have also been given 4 more teachers by the government to cope with the extra demand for pupil places in our school”

Mr Patrick (Nakibungulya Headmaster)

Total Cost: \$ 18,750

Water Tank funded by Batten House

Project Number: 090
