

Great Hope Primary School

Six Classroom Block Renovation

Dec 2015 - Feb 2016

Project Overview:

This refurbishment project used HYT trained masons (including two recent graduates from 1V7) to give Great Hope's tired looking six classroom block a new lease of life. The team managed the delicate task of reroofing the block, as well as plastering and painting both the interior and exterior.

Feedback:

"The work is great! The number of students in the school has already gone up and the teachers feel the school is complete"

Emma Kabaala - JET

Total Cost: \$9,743

Funded by: Jinja Educational Trust
