

Classroom Block, Kitchen and 2 Stance Pit Latrine

Uganda Railways Primary School

With Children on the Edge

May - September 2016

Project Overview:

Children on the Edge's request for a new Early Childhood Development Centre at Uganda Railways Primary School gave HYT's recent graduates a great opportunity for further employment following their training. Assembled from various earlier HYT projects, the members of this veteran team were able to combine and hone their skills to produce the latrines, energy-saving kitchen and classroom space that are helping the school to thrive.

Feedback:

"We were amazed by the good work so far done by HYT".

Edwin, Director, Children on the Edge Africa

Total Cost: \$33,934
(UGX 115,000,000)

Project Number: 100
