

# Energy Efficient Stoves

**Location:** Lake Site Primary School, Jinja

**Partner:** Peter Bond

**Date:** June 2018

HYT's strong relationship with Lake site primary school is heating up once again, this time with a three burner, energy efficient stove.

These stoves use significantly less fuel and keep the cooking environment smoke free.

The energy saving quality of these stoves is ongoing. Up to 33% Less wood is needed to cook with and over time the carbon savings are significant.

Feedback: 'The kitchen is less smoky and the stove looks very smart'

Cost: 1,971,375 UGX

*Inefficient Stoves use more wood and create smoky environments for cooks*

*New stove creates a healthy environment for cooks and saves money on fuel*
