

6 Rainwater Harvesting tanks

6 Schools

6 New HYT graduates

Partner: Water Charity

Date: February – June 2018

Six schools in Mabira forest have received 20,000L water tanks, generously funded by The **Water Charity**.

These tanks provide schools with a **local, safe and secure** source of water.

Previously children would walk up to 3km a day to collect water. The project will impact the lives of **1,045 school children** by alleviating the burden of water collection.

Over the 4-month project, **6 previously unemployed** youths were equipped with employable skills through training in **ISSB construction**.

Energy Saved: 35.322 MWh

Total cost: 54,400,0000 UGX
