

Early Childhood Development Centre

Location: Wandago

Partner: Children on the Edge

Date: September – October 2018

HYT has once again had the pleasure of working with Children on the Edge, constructing a new Early Childhood Development Centre, this time in Wandago. Thanks to funding from Children on the Edge and the continuous exceptional work of the HYT graduate team, a much needed two classroom block with two internally accessed stores, alongside a 5 stance latrine has been erected. With Wandago being a very poor area, there are few teachers, and even fewer schools. Children on the Edge are addressing this issue from the ground up, we are excited to see the difference this project makes when the centre opens.

Cost: 82,604,676 UGX / 22,352 USD

Energy Saved: 28.89 MWh
